

Parent-Referral for Girl's Friendship Group

I will be offering a friendship group for girls at Columbia Middle School. The group will begin before Winter Break and will run throughout the school year. The sessions will be held throughout the various lunch times. Students will bring their lunch to group. On occasion, lunch will be provided for the entire group. I will notify the students ahead of time when lunch will be provided.

This group will focus on developing friendships, dealing with conflicts, being left out or excluding others, and the idea of cliques. A primary goal of this group is to cut down on bullying that takes place in school by increasing awareness and acceptance of one another. The middle school years provide opportunities to develop and understand effective social and communication skills. This group will allow students to practice these skills with real life applications. On a lighter note, this group will allow for a safe place that girls can chat with peers about topics that are important to their lives.

Please indicate below if you are interested in having your child join. This opportunity is available to all female students. You may return this form to the middle school office.

Please return to the office.

_____ Girls Friendship Group
For students interested in expanding appropriate friendship skills.

Name _____ Grade _____
